

THE MODERN METHOD OF TRANSPORTATION IS BY MEANS OF OUR

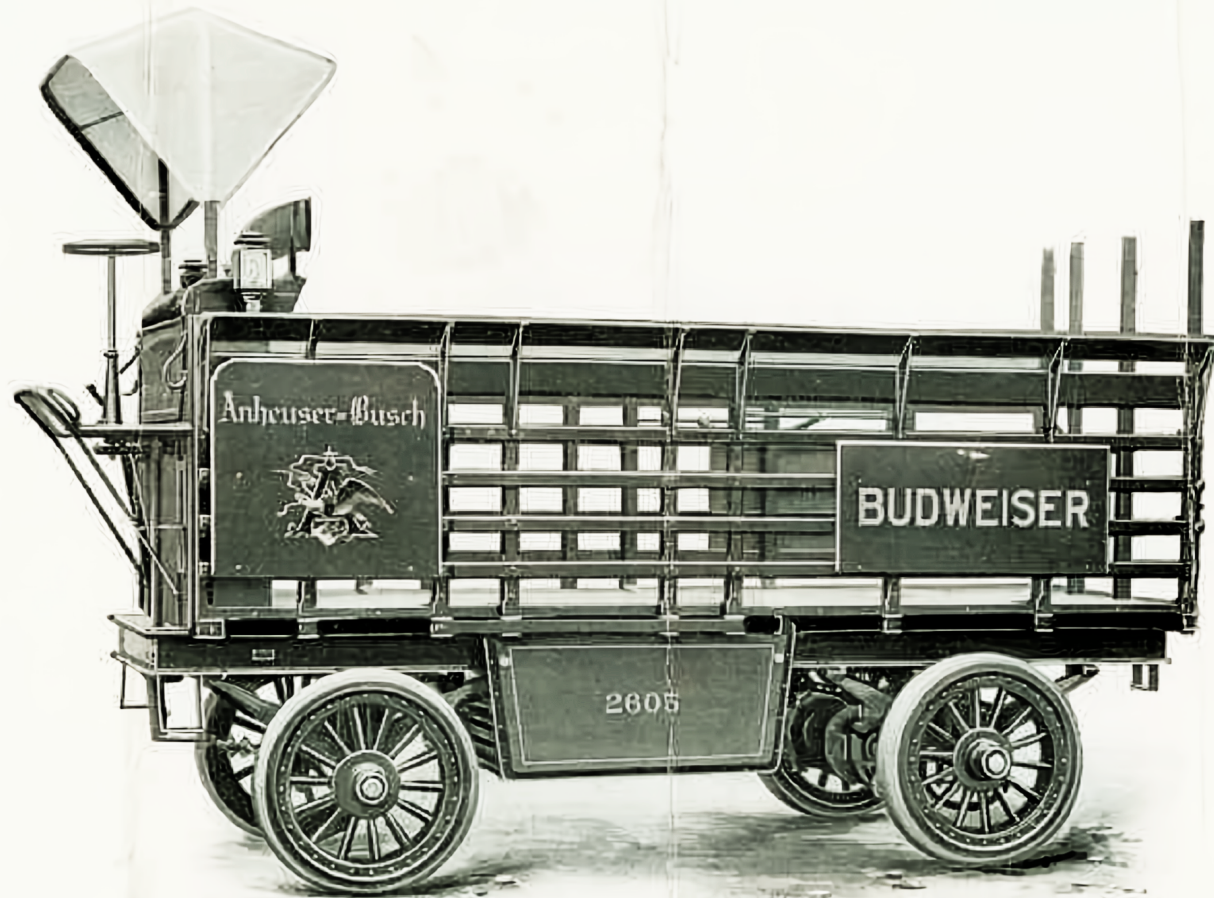

ELECTRIC AUTOMOBILE TRUCKS.

BUILT OF ANY CARRYING CAPACITY FROM ONE TO FIVE TONS. PARTICULARLY ADAPTED FOR HEAVY HAULING.

Twice the work of
horse trucks at half the
cost.

Built in five sizes,
carrying from one-half
to five tons.

Already adopted by the
leading firms throughout
the country.

Anheuser-Busch,
after trying two
trucks, purchased
twenty-two more
of the same kind.

WRITE FOR COMPLETE CATALOGUE TO

THE RAINIER COMPANY, SOLE AGENTS FOR VEHICLE EQUIPMENT COMPANY,

LARGEST BUILDERS OF ELECTRIC VEHICLES IN THE WORLD.

BROADWAY, COR. 30th STREET, . . . NEW YORK.

and many others too numerous to mention.

For particulars address THE RAINIER COMPANY,

Broadway, Cor. 50th Street, NEW YORK.

These trucks carry fifty halves, but we also build five smaller sizes. See complete catalogue, sent on request.

Batteries are charged at 110 to 120 volts. If you operate private dynamos for lighting purposes, current can be used for charging these trucks.

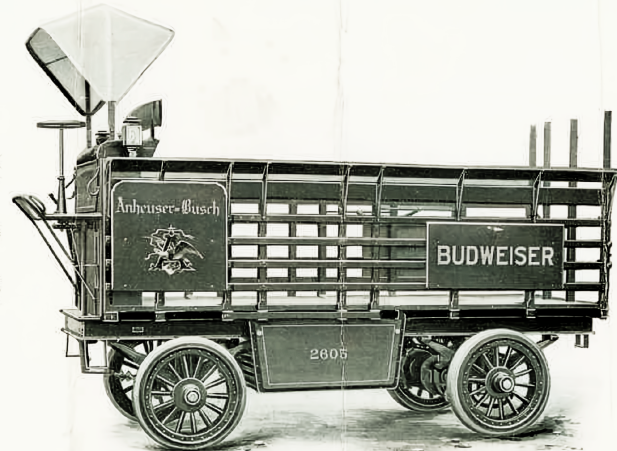

Duplicate and triplicate orders from former users are the best evidence of satisfactory service.

We have them in abundance.

Each of these trucks is doing the work of four horses.
